

7:45 am | REGISTRATION AND WELCOMING OF PARTICIPANTS

8:00 am | LIVE OR PRE-RECORDED OPERATIVE DEMONSTRATIONS

**ANAL FISTULA AND PILONIDAL SINUS**

- Video Assisted Anal Fistula Treatment (VAAFT): everything you need to know
- Complex and recurrent anal fistula: a very difficult case
- LIFT procedure
- Lay open technique with immediate sphincter reconstruction
- TROPIS for complex anal fistula: a new concept
- What happens if the seton is misplaced
- Stem cells in anal fistula
- FiLaC and its indications
- Endoscopic Pilonidal Sinus Treatment (EPSiT)
- Role of the US for anal fistula and pilonidal sinus
- Crohn's anal fistulas
- Perianal hidradenitis: a challenge
- SiLaC for pilonidal sinus
- Anal fistula: various ways to close the internal opening
- EPSiT in recurrences
- Negative Pressure-Assisted EPSiT

1:15 pm | LUNCH AT THE INSTITUTE

2:15 pm | HANDS-ON SESSION ON PELVIC TRAINER, MODELS AND LIVE TISSUE (MINI-PIGS)

- Video-Assisted Anal Fistula Treatment (VAAFT)
- Endoscopic Pilonidal Sinus Treatment (EPSiT)
- LIFT procedure
- Stapled prolassectomy
- Handling Rectal prolapse suspension
- FiLaC procedure for anal fistula
- SiLaC for pilonidal disease
- Autologous dermis flap for closing internal opening of anal fistula

6:00 pm | END OF SESSION

8:00 pm | DINNER IN HONOR OF THE PARTICIPANTS

**7:50 am | EVALUATION OF THE PREVIOUS DAY'S SESSIONS**

**8:00 am | LECTURES AND PRE-RECORDED OPERATIVE DEMONSTRATIONS**

**SESSION 1: RECTAL PROLAPSE, ODS AND HAEMORRHOIDS**

- Proper performance of a Milligan-Morgan procedure
- LHP: laser procedure. A case.
- The Anolift
- STARR and high volume stapler for III-IV hemorrhoid degree
- A complex case of hemorrhoids recurrence
- Complication after surgical treatments: can we chat about them?

**SESSION 2: EXTERNAL RECTAL PROLAPSE AND TRANSANAL SURGERY**

- The rectal prolapse theory
- Handling calibrated prolapse suspension with sutures reinforcement
- Internal Délorne
- External Rectal Prolapse: how many options do we have?
- Perianal Stapled Prolapse Resection (PSPR)
- Délorne procedure
- Altemeier technique
- Ventral Rectopexy
- Robotic Management of the external rectal prolapse
- TEO and TAMIS procedures for treating external prolapse.

**1:15 pm | LUNCH AT THE INSTITUTE**

**2:15 pm | HANDS-ON SESSION ON PELVIC TRAINER, MODELS AND LIVE TISSUE (MINI-PIGS)**

- TEO procedure
- TAMIS procedure
- Anal sphincter repair
- Sphinkeeper for fecal incontinence
- Ventral rectopexy
- HR Station and HRA Station: new technology serving the Colorectal Surgeon

**5:00 pm | END OF SESSION  
DELIVERY OF CERTIFICATES OF ATTENDANCE**
