

Research Fellowship in Image-Guided Surgery with a special focus on Percutaneous Surgery

DESCRIPTION

Company: IRCAD was created in 1994 in Strasbourg by Professor Jacques Marescaux. It is an internationally renowned research and training center. The Institute welcomes every year more than 8,000 healthcare professionals to provide them with state-of-the-art training in minimally invasive surgery in various specialties with the latest technologies (image-guided surgery, artificial intelligence, robotics, etc.).

Contact info: communication@ircad.fr

Place of employment: 1 place de l'Hôpital, 67100 Strasbourg, France
Within the University Hospital of Strasbourg

Compensation: To be defined depending on profile

Contract duration: 1 year

APPLICATION REQUIREMENTS

Fellowship under the supervision of Prof. Mariano Giménez

- Keen interest in IGS and Percutaneous Surgery (image-guided surgery, artificial intelligence, percutaneous procedures, ultrasound, and robotics)
