THE BEST TRAINING CENTER IN THE WORLD

IRCAD is one of the leading surgical education providers in the world, an ambassador of French excellence in minimally invasive surgery. The Institute offers unique training facilities, and welcomes over 8,800 surgeons from all surgical specialties every year. The remarkable involvement and self-commitment of more than 800 international experts, who are recognized as international opinion leaders, is key to the Institute's success.

FULL IMMERSION IN PEDIATRIC SURGERY

Minimally invasive surgery has come a long way since the 1980s, when pioneers first started demonstrating that all types of malformations could be managed using laparoscopy, thoracoscopy, retroperitoneoscopy, subcutaneous videosurgery, videosurgery combined with endoluminal endoscopy, and robotic surgery. Today it has become undeniable that minimally invasive surgery is, without a doubt, feasible and safe.

For 17 years now we have been alternating between a visceral thoracic neonatal surgery course and urological surgery course, every 2 years. In 2023, IRCAD France will be holding again a **visceral thoracic neonatal surgery course**, which is a more general approach to pediatric surgery. Interactive theoretical training and video sessions combined with hands-on training on live tissue under expert tutorial in the experimental lab will provide course participants the tools they require to improve their skills.

The great novelty this year is our **brand-new course in pediatric robotic surgery**. This 2-day course will cover a broad spectrum of surgical procedures in robotic pediatric surgery, and will be divided into two parts with one morning dedicated to theoretical training, and the rest of the course entirely dedicated to hands-on training. Participants will make the most of IRCAD's state-of-the-art facilities and practice on pelvic trainers, simulators and live tissue, under the supervision of the world's most skilled experts. The objective is to master the use of the latest generation of robotic systems, in order to implement their use in the operating room as safely as possible.

COURSE CANCELLATION POLICY

Should you wish to cancel or postpone your registration, please notify us by email at: **cancellation@ircad.fr**. Please note that no refund or postponement will be considered for any cancellation received less than 6 weeks before the course starts, even if Visa application has been denied.
