Contrôle Métabolique et Nutritionnel en Oncologie Digestive

1993 - 2015

Last update: 2015-05-12

1. Julien-David D., Zhao M., Geoffroy P., Miesch M., Raul F., Aoudé-Werner D., Ennahar S., Marchioni E. **Analysis of sitosteryl oleate esters in phytosterols esters enriched foods by HPLC-ESI-MS(2).** *Steroids* 2014;84:84-91.
2. Kauntz H., Bousserouel S., Gossé F., Raul F. **Epigenetic effects of the natural flavonolignan silibinin on colon adenocarcinoma cells and their derived metastatic cells.** *Oncol Lett* 2013;5:1273-1277.
3. Bousserouel S., Le Grandois J., Gossé F., Werner D., Barth S.W., Marchioni E., Marescaux J., Raul F. **Methanolic extract of white asparagus shoots activates TRAIL apoptotic death pathway in human cancer cells and inhibits colon carcinogenesis in a preclinical model.** *Int J Oncol* 2013;43:394-404.
4. Teller N., Roth M., Esselen M., Fridrich D., Boettler U., Blust V., Will F., Dietrich H., Raul F., Hümmer W., Richling E., Schreier P., Marko D. **Apple procyanidins affect several members of the ErbB receptor tyrosine kinase family in vitro.** *Food Funct* 2013;4:689-697.
5. Kauntz H., Bousserouel S., Gossé F., Marescaux J., Raul F. **Silibinin, a natural flavonoid, modulates the early expression of chemoprevention biomarkers in a preclinical model of colon carcinogenesis.** *Int J Oncol* 2012;41:849-854.
6. Bousserouel S., Bour G., Kauntz H., Gossé F., Marescaux J., Raul F. **Silibinin inhibits tumor growth in a murine orthotopic hepatocarcinoma model and activates the TRAIL apoptotic signaling pathway.** *Anticancer Res* 2012;32:2455-62.
7. Kauntz H., Bousserouel S., Gossé F., Raul F. **The flavonolignan silibinin potentiates TRAIL-induced apoptosis in human colon adenocarcinoma and in derived TRAIL-resistant metastatic cells.** *Apoptosis* 2012;17:797-809.
8. Bousserouel S., Lamy V., Gossé F., Lobstein A., Marescaux J., Raul F. **Early modulation of gene expression used as biomarker for chemoprevention in a preclinical model of colon carcinogenesis.** *Pathol Int* 2011;61:80-87.
9. Bousserouel S., Lamy V., Gossé F., Lobstein A., Marescaux J., Raul F. **Early modulation of gene expression used as biomarker for chemoprevention in a preclinical model of colon carcinogenesis.** *Pathol Int* 2011;61:80-87.
10. Madonado-Celis ME., Bousserouel S., Gossé F., Lobstein A., Raul F. **Differential activation of Fas (CD95) mediated apoptosis by apple procyanidins in human colon cancer cells SW480 and their derived metastatic cells CW620.** *Colomb Med* 2011;42:166-176.
11. Lamy V., Bousserouel S., Gossé F., Minker C., Lobstein A., Raul F. **Lupulone triggers p38 MAPK-controlled activation of p53 and of TRAIL receptor apoptotic pathway in human colon cancer derived metastatic cells.** *Oncol Rep* 2011;26:109-114.
12. Kauntz H., Bousserouel S., Gossé F., Raul F. **Silibinin triggers apoptotic signaling pathways and autophagic survival response in human colon adenocarcinoma cells and their derived metastatic cells.** *Apoptosis* 2011;16:1042-1053.
13. Bousserouel S., Kauntz H., Gossé F., Bouhadjar M., Soler L., Marescaux J., Raul F. **Identification of gene expression profiles correlated to tumor progression in a preclinical model of colon carcinogenesis.** *Int J Oncol* 2010;36:1485-1490.
14. Lamy V., Bousserouel S., Gossé F., Minker C., Lobstein A., Raul F. **P53 activates either survival or apoptotic signaling responses in lupulone-treated human colon adenocarcinoma cells and derived metastatic cells.** *Transl Oncol* 2010;3:286-292.
15. Bousserouel S., Gossé F., Bouhadjar M., Soler L., Marescaux J., Raul F. **Long-term administration of aspirin inhibits tumour formation and triggers anti-neoplastic molecular changes in a pre-clinical model of colon carcinogenesis.** *Oncology Reports* 2010;23:511-517.
16. Julien-David D., Ennahar S., Miesch M., Geoffroy P., Raul F., Aoudé-Werner D., Lessinger JM., Marchioni E. **Effects of oxidation on the hydrolysis by cholesterol esterase of sitosteryl esters as compared to a cholesteryl ester.** *Steroids* 2009;74:832-836.
17. Maldonado-Celis ME., Bousserouel S., Gossé F., Minker G., Lobstein A., Raul F. **Differential induction of apoptosis by apple procyanidins in TRAIL-sensitive human colon tumor cells and derived TRAIL-resistant metastatic cells.** *J Cancer Mol* 2009;5:21-30.
18. Maldonado-Celis ME., Bousserouel S., Gossé F., Lobstein A., Raul F. **Apple procyanidins activate apoptotic signaling pathway in human colon adenocarcinoma cells by a lipid-raft independent mechanism.** *Biochem Biophys Res Commun* 2009;388:372-376.
19. Julien-David D., Geoffroy P., Marchioni E., Raul F., Aoudé-Werner D., Miesch M. **Synthesis of highly pure oxyphytosterols and (oxy)phytosterol esters. Part II. (Oxy) sitosterol esters derived from oleic acid and from 9,10 dihydroxystearic acid.** *Steroids* 2008;73:1098-1109.
20. Geoffroy P., Julien-David D., Marchioni E., Raul F., Aoudé-Werner D., Miesch M. **Synthesis of highly pure oxyphytosterols and (oxy)phytosterol esters Part I. Regioselective hydrogenation of stigmasterol: an easy access to oxyphytosterols.** *Steroids* 2008;73:702-707.
21. Maldonado-Celis M.E., Roussi S., Foltzer-Jourdainne C., Gossé F., Lobstein A., Habold C., Roessner A., Schneider-Stock R., Raul F. **Modulation by polyamines of apoptotic pathways triggered by procyanidins in human metastatic SW620 cells.** *Cell Mol Life Sci* 2008;65:1425-1434.
22. Siegel L., Miternique-Grosse A., Griffon C., Klein-soyer C., Lobstein A., Raul F., Stephan D. **Antiangiogenic properties of lupulone, a bitter acid of hop cones.** *Anticancer Res* 2008;28:289-294.
23. Lamy V., Roussi S., Chaabi M., Gossé F., Lobstein A., Raul F. **Lupulone, a hop bitter acid, activates different death pathways involving apoptotic Trail-receptors, in human colon tumor cells and in their derived metastatic cells.** *Apoptosis* 2008;13:1232-1242.

24. Hatwig A., Pelzer A., Burnouf D., Titéca H., Delincee H., Briviba K., Soika C., Hodapp C., Raul F., Miesch M., Werner D., Horvatovich P., Marchioni E. **Toxicological potential of 2-alkylcyclobutanones specific radiolytic products in irradiated fat-containing food in bacteria and human cell lines.** *Food Chem Toxicol* 2007;45:2581-2591.
25. Seiler N., Raul F. **Polyamines and the intestinal tract.** *Crit Rev Clin Lab Sci* 2007;44:365-411.
26. Raul F. **Revival of 2 (difluoromethyl) ornithine (DFMO), an inhibitor of polyamine biosynthesis, as a cancer chemopreventive agent.** *Biochem Soc Trans* 2007;35:353-355.
27. Raul F., Gossé F., Osswald A.B., Bouhadjar M., Foltzer-Jourdainne C., Marescaux J., Soler L. **Follow-up of tumor development in the colons of living rats and implications for chemoprevention trials: Assessment of aspirin-difluoromethylornithine combination.** *Int J Oncol* 2007;31:89-95.
28. Raul F., Gossé F., Osswald AB., Bouhadjar M., Foltzer-Jourdainne C., Marescaux J., Soler L. **Follow-up of tumor development in the colons of living rats and implications for chemoprevention trials: Assessment of aspirin-difluoromethylornithine combination.** *Int J Oncol* 2007;31:89-95.
29. Lamy V., Roussi S., Chaabi M., Gossé F., Schall N., Lobstein A., Raul F. **Chemopreventive effects of lupulone, a hop B-acid, on human colon cancer-derived metastatic SW620 cells in a rat model of colon carcinogenesis.** *Carcinogenesis* 2007;28:1575-1581.
30. Roussi S., Gossé F., Aoudé-Werner D., Zhang X., Marchioni E., Geoffroy P., Miesch M., Raul F. **Mitochondrial perturbation, oxidative stress and lysosomal destabilization are involved in 7 $\beta$ -hydroxysitosterol and 7 $\beta$ -hydroxycholesterol triggered apoptosis in human colon cancer cells.** *Apoptosis* 2007;12:87-96.
31. Kaur G., Roberti M., Raul F., Pendurthi U.R. **Suppression of human monocyte tissue factor induction by red wine phenolics and synthetic derivatives of resveratrol.** *Thromb Res* 2007;119:247-256.
32. Zhang X., Geoffroy P., Miesch M., Julien-David D., Raul F., Aoudé-Werner D., Marchioni M. **Gram-scale chromatographic purification of  $\beta$ -sitosterol synthesis and characterization of  $\beta$ -sitosterol oxides.** *Steroids* 2005;70:886-895.
33. Zhang X., Julien-David D., Miesch M., Geoffroy P., Raul F., Roussi S., Aoudé-Werner D., Marchioni E. **Identification and quantitative analysis of  $\beta$ -sitosterol oxides in vegetable oils by capillary gas chromatography-mass spectrometry.** *Steroids* 2005;70:896-906.
34. Gossé F., Guyot S., Roussi S., Lobstein A., Fischer B., Seiler N., Raul F. **Chemopreventive properties of apple procynidins on human colon cancer-derived metastatic SW620 cells and in a rat model of colon carcinogenesis.** *Carcinogenesis* 2005;26:1291-1295.
35. Mayeur C., Veuillet G., Michaud M., Raul F., Blottière H.M., Blachier F. **Effects of agmatine accumulation in human colon carcinoma cells on polyamine metabolism, DNA synthesis and the cell cycle.** *Biochim Biophys Acta* 2005;1745:111-123.
36. Roussi S., Winter A., Gosse F., Werner D., Zhang X., Marchioni E., Geoffroy P., Miesch M., Raul F. **Different apoptotic mechanisms are involved in the anti-proliferative effects of 7 $\beta$ -hydroxysitosterol and 7 $\beta$ -hydroxycholesterol in human colon cancer cells.** *Cell Death Differ* 2005;12:128-135.
37. Raul F. **Resveratrol as an antitumor agent in vivo.** In *Resveratrol in Health and Disease* (edited by BB Aggarwal and S Shishodia). CRC Press, Boca Raton, USA 2005:385-399.
38. Marchioni E., Raul F., Burnouf D., Miesch M., Delincee H., Hartwig A., Werner D. **Toxicological study on 2-alkylcyclobutanones-results of a collaborative study.** *Radiation Phys Che* 2004;71:147-148.
39. Zaric V., Weltin D., Erbacher P., Remy J.S., Behr J.P., Stephan D. **Effective polyethylenimine-mediated gene transfer into human endothelial cells.** *J Gene Med* 2004;6:176-184.
40. Rodriguez S., Schleiffer R., Raul F., Richert L., Berthelot A. **How could aortic arginase activity enhancement be involved in DOCA-salt hypertension?.** *Clin Exp Hypertens* 2004;26:1-12.
41. Biarc J., Nguyen I.S., Pini A., Gossé F., Thierse D., Van Dorsselaer A., Leize-Wagner E., Raul F., Klein J.P., Scholler-Guinard M. **Carcinogenic properties of proteins with pro-inflammatory activity from streptococcus bovis.** *Carcinogenesis* 2004;25:1477-1484.
42. Seiler N., Schneider Y., Gosse F., Schleiffer R., Raul F. **Polyploidisation of metastatic colon carcinoma cells by microtubule and tubulin interacting drugs. Effect on proteolytic activity and invasiveness** 2004;25:1039-1048.
43. Carnesecchi S., Bras-Goncalves R., Bradaia A., Zeisel M., Gosse F., Poupon M.F., Raul F. **Geraniol, a component of plant essential oils, modulates DNA synthesis and potentiates 5-Fluorouracil efficacy on human colon tumor xenografts.** *Cancer Lett* 2004;215:53-59.
44. Schneider Y., Fischer B., Coelho D., Gossé F., Bischoff P., Raul F. **(Z)-3,4',5-tri-O-methyl-resveratrol, induces apoptosis in human lymphoblastoid cells independently of their p53 status.** *Cancer Lett* 2004;21:155-161.
45. Seiler N. **Thirty years of polyamine related approaches to cancer therapy. Retrospect and prospect. Part 1. Selective enzyme inhibitors.** *Curr Drug Targets* 2003;4:537-564.
46. Seiler N. **Thirty years of polyamine related approaches to cancer therapy. Retrospect and prospect. Part 2. Structural analogues and derivatives.** *Curr Drug Targets* 2003;4:565-585.
47. Duranton B., Holl V., Schneider Y., Carnesecchi S., Gosse F., Raul F., Seiler N. **Polyamine metabolism in primary human colon adenocarcinoma cells (SW480) and their lymph node metastatic derivatives (SW620).** *Animo Acids* 2003;24:63-72.

48. Schneider Y., Chabert P., Stutzmann J., Coelho D., Fougerousse A., Gosse F., Launay J.F., Brouillard R., Raul F. **Resveratrol analog (Z)-3,5,4'-trimethoxystilbene: a new potent antimitotic agent interacting with microtubules.** *Int J Cancer* 2003;107:189-196.
49. Horvatovich P., Raul F., Miesch M., Burnouf D., Delincee H., Hartwig A., Werner D., Marchioni E. **Detection of 2-alkylcyclobutanones, markers for irradiated foods, in adipose tissues of animals fed with these substances.** *J. Food Protect.* 2002;65:1610-1613.
